

**You're in it for the long haul.  
So is Caterpillar.**

**You can depend on Caterpillar now and in the future.** That's great news for fleets and owner-operators. Because our mission has always been—and always will be—to provide the reliable engines you need to get the job done. Now more than ever, Cat® engines with ACERT™ Technology give you the power to pull ahead.

### **Five reasons to run Cat engines**

#### **Performance**

These engines haul. Buckle up and go.

#### **Regeneration**

The Cat Regeneration System works automatically while you're driving. No need to pull off the road and start flipping switches.

#### **Fuel economy**

Better than expected. Even better than EPA 04 engines.

#### **Dealer support**

3,500+ technicians are trained to support our EPA 07 engines. And they have the parts to do it.

#### **Committed to 2010**

2010-compliant engines are already in the lab and on the road. Right on schedule.

*"We're currently running 222 Cat '07 C15s. We had heard some rumors about the new Cat engines. But we put all those to bed. The average fuel economy on the new C15s is 7.2 to 7.4, compared to our fleet average of 6.7. And the drivers have been bragging about how they've been getting better pulling power over the hills. The reliability is there, less breakdowns. That's why we've got 200 more on the way."*

— Robert Long, CFO, USA Logistics Carriers
